## Academic Projects

---

### Human Resource Management System: Link

HTML, CSS, Js, PHP, MySQL

HRMS (Human Resource Management System) is software designed to streamline and automate HR processes such as employee data management, payroll, and performance tracking. It centralizes employee information, ensuring compliance with labor laws, and offers self-service portals for employees. The system improves efficiency, reduces administrative costs, and provides actionable insights.

### Library Management System: Link

HTML, CSS, Js, PHP, MySQL

LMS (Learning Management System) is software designed to deliver, track, and manage training and educational courses. It provides a centralized platform for creating, distributing, and deleting content, supporting online blended learning environments. Key features include course management, learner registration, and separate profile. LMS enhances learning experiences, improves accessibility.

## Education

---

### Acharya Institute of Technology

2021 – Present

*B.E, Information Science, CGPA - 8.26*

### Basaveshwar Science College

2020 – 2021

*Class XII, Statistics, Percentage - 73.50*

### Adarsha Vidyalaya RMSA

2018 – 2019

*Class X, Percentage - 85.12*

## Technical Skills

---

**Programming Languages:** C, C++, Python, Java

**Web Development:** HTML, CSS, Js, AngularJs, Django

**Database:** MySQL

## Internships

---

- **Cybersecurity:** A cybersecurity internship covers threat identification, network security, and the use of security tools. Interns learn vulnerability assessments, incident response, cryptography, and secure software development. They also gain knowledge of compliance regulations and risk management. Additionally, interns develop crucial soft skills like effective communication and problem-solving
- **AI and Cloud:** In an AI and Cloud internship, we develop practical skills in machine learning and cloud computing, working with popular tools and platforms. We can gain experience in real-world project development, including deployment and management of AI solutions. The internship will enhance your problem-solving abilities, adaptability, and understanding of industry trends and best practices. Then we also improve communication and teamwork skills while building valuable professional connections.

## Events

---

- IoT Project Based on Sensors and Actuators
- Coding Events
- Debugging Competition

## Langauages

---

**English:** Professional, **Kannada:** Native, **Hindi:** Limited
